

AKASH ASHOK SHINDE

Vaijapur, Chhatrapati Sambhajnagar, Maharashtra | luckakash65@gmail.com | linkedin.com/in/akash--shinde | github.com/AkashShinde65

PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience building secure, scalable web applications using Spring Boot, Spring Security, React, and MySQL. CDAC Advanced Computing certified with a strong foundation in OOP, REST APIs, and Docker-based deployment.

EDUCATION

PG-DAC (PGCP-AC) — CDAC

Feb 2026 Batch

First Class, 62nd Percentile

B.E., Electronics & Telecommunication Engineering

Sandip Institute of Technology and Research Centre, Savitribai Phule Pune University

2025 | 65.5% (First Class)

HSC (Class XII), Science

HS Jijai Junior College, Manoor, Maharashtra State Board

2016 | 61.84%

SSC (Class X)

Z.P.S.H. Wakla, Maharashtra State Board

2014 | 59.2%

TECHNICAL SKILLS

Languages: Java, C++, JavaScript, Embedded C

Backend: Spring Boot, Spring Security, JWT/JWKS, REST APIs, Hibernate

Frontend: ReactJS, HTML5, CSS3, JavaScript

Database & Cloud: MySQL, Docker, AWS EC2, Git/GitHub

Other: IoT (ESP32), Object-Oriented Design

ACADEMIC PROJECTS

FarmaTrade — F2B Agricultural Marketplace Platform

1 Month

Java, Spring Boot, Spring Security (JWT/JWKS), MySQL, Docker, AWS EC2, REST API, ReactJS, JavaScript, HTML, CSS

- Built a full-stack Farmer-to-Buyer (F2B) marketplace replacing the traditional mandi commission-agent system with transparent live auctions and fixed-price trading.
- Implemented secure authentication using Spring Security with JWT/JWKS, role-based access control, and Aadhaar validation via the Verhoeff checksum algorithm.
- Integrated Agmarknet API for live mandi prices and Open-Meteo API for spoilage-risk prediction; built logistics matching using Haversine distance and Nominatim geocoding.
- Designed a concurrency-safe bidding system using optimistic and pessimistic locking with anti-snipe windows.
- Integrated Razorpay payment gateway with HMAC-verified webhooks for secure transactions and automated farmer payouts; containerized microservices using Docker with isolated MySQL databases.

Smart Medicine Box — An IoT Solution for Timely Medication

6 Months

Embedded C, ESP32, IoT

- Developed an IoT-enabled Smart Medicine Box using ESP32 and Embedded C/C++ to improve medication adherence through automated reminders and monitoring.
- Implemented real-time scheduling for medication alerts (buzzer and LEDs) and Wi-Fi connectivity for remote monitoring.
- Built modules for reminder management, medication tracking, and event handling, reducing missed doses through Embedded Systems and IoT integration.

CERTIFICATIONS & ADDITIONAL INFORMATION

Certification: Java Programming — Besant Technologies, Chennai (Online)

Languages Known: English, Marathi, Hindi

Interests: Software troubleshooting, exploring new technologies, trekking, travel
