SUMMARY

Entry-level Software Developer proficient in .NET , SQL, and Web Development. Experienced in database-driven applications, AWS cloud services, and IoT solutions. Strong analytical and problem-solving skills with a quick learning ability and effective communication. Committed to delivering scalable and efficient software solutions.

TECHNICAL SKILL

- Programming Languages: .NET , C# , Core Java , SQL
 - Frameworks & Technologies: .NET Framework, .NET Core, ASP.NET, LINQ, Entity Framework
 - Web Development: HTML, CSS, JavaScript
 - Database & DBMS: MySQL
 - Cloud Computing: AWS (Compute, Storage, Networking, Database Services)
 - Networking & Security: Computer Networks, Network Security
 - Concepts: OOP, Data Structures & Algorithms
 - Tools: Git/GitHub, Eclipse, IntelliJ, VS Code
 - Other Skills: Digital Marketing (SEO, Social Media Marketing)
-

EXPERIENCE

Internships

- Java Programming Intern – Learn Smasher Edutech LLP Feb 2025 – Apr 2025
 - Worked on Java programming assignments and mini-projects.
 - Gained hands-on experience with OOP concepts, JDBC, exception handling, and collections.
 - Assisted in debugging, code optimization, and documentation.
 - Python Programming with Data Structures & Algorithms (DSA) Internship – YBI Foundation Aug 2024 - Oct 2024
 - Gained hands-on experience in Python programming with a focus on data structures, algorithms, and problem-solving techniques.
 - Worked on practical coding assignments and mini-projects, strengthening analytical and logical thinking.
-

Project

Projects

- Smart Medicine Box (IoT, Python, Microcontrollers)
 - Developed a smart medicine dispenser with programmable pill quantity and reminders.
 - Implemented user authentication and transaction tracking.
-

ACCOMPLISHMENTS

Hackathon

- Accenture Innovation Challenge – Hack2Skill Bootcamp
 - Smart India Hackathon (SIH) 2024 – Internal Hackathon, SITRC
 - Actively participated in problem-solving and innovative solution development, showcasing teamwork and dedication.
 - Flipkart GRiD 6.0 – Software Development Track
 - Participated as part of Team , working on real-world problem statements and scalable software development practices.
-

Certifications

- AWS Knowledge: Cloud Essentials – Amazon Web Services
 - Java Programming – Besant Technologies / Learn Smasher Edutech LLP
 - Fundamental AI and Data Skills – YBI Foundation
 - Fundamental Classification Modelling – YBI Foundation
 - Core Java & Advanced Java Concepts – JDAC Exam
 - Generative AI Workshop – Think Quotient
 - Participated in a workshop on Generative AI, exploring applications of artificial intelligence in emerging fields.
 - Python Programming Essentials Bootcamp – LetsUpgrade
 - Successfully completed a 5-day bootcamp focused on Python programming fundamentals and practical implementation.
-

Key Achievements

- Built database-driven applications using Java, Python, and SQL, improving data handling and reporting efficiency.
 - Gained hands-on experience with AWS cloud services, cloud computing, and deployment of scalable applications.
 - Completed projects in Network Security, ensuring secure data transmission and system integrity.
 - Worked on Data Analytics projects, leveraging data to generate actionable insights.
 - Successfully completed multiple web development projects, integrating front-end and back-end technologies.
 - Recognized for quick learning, problem-solving skills, and effective collaboration in team projects.
-

EDUCATION

- Bachelor of Engineering in Electronics & Telecommunication
 - Savitribai Phule Pune University – Sandip Foundation (SITRC), 2021–2025 | CGPA: 7.30
 - Relevant Coursework: Data Structures, OOP, DBMS, Computer Networks, Cloud Computing, Network Security, Software Engineering
 - HSC (Science) – Jijai Junior College, 2016 | 61.85%
 - SSC – Z.P. High School, 2014 | 60%
-

Webinar

- How to Get Started with DevOps Without Having to Learn Complex Coding – GUVI (HCL), Sept 2025
- Ethnus- Infosys Foundation training - Java/MERN
- Master Java Concurrency & Multithreading| Masterclass – Sept 2025
